**RE: 1.. 02-278 Telephone Consumer Protection Act of 1991; and
2.. Controlling/forcing us to allow uninvited intrusions into our
personal lives in general;**

Dear Sir or Madame;

**I am very opposed to this new allowance of government to allow to pass
the Telephone Consumer Protection Act of 1991, and
to allow further intrusions into our private lives in general.**

**Kindly assure That this does not enter into our overcrowded time with
malicious, commercial or intrusive ways.**

**I am sure you are aware of all the uninvited intrusions into our lives
and shopping experiences, such as asking our opinions of the product
and our shopping experiences on the internet without getting the
reasonable time and possibility to replying in a responsible way. The
government is in effect assisting companies and entities to have a legal
device against us, which in essence forces us to take the government
legalities lightly.**

Why not have the seller beware?
